

Engineering your system for sanitation.

- EPA cleaner and disinfectant
- Highest quality parts engineered and manufactured in Japan, Germany and the USA
- Unparalleled experience and knowledge

Pedi.Giene is the latest addition to Sanicor's extensive product line. Pedi.Giene cleans and disinfects salon instruments and all hard surfaces to kill viruses and bacteria according to new EPA standards.

Over 25 years of engineering and supplying the therapy and salon industries with the highest quality whirlpool, therapy and sanitizing products.

- Sanitation starts from within a system
- Pipeless jets still require cleaning of cumbersome parts which you cannot compare to the performance of our system and jets.

When it comes to your client's safety... Trust knowledge. Trust experience. Trust Sanicor for all of your water therapy and sanitation needs.

What: Aidan Gill for Men, New Orleans

Where: www.aidangillformen.com

Why click there?: Old-fashioned graphics, a really cool virtual tour, a few gentle jabs at unisex salons, and a luxurious shave described in rich detail. The Child's Heirloom Haircut memorializes a boy's first haircut with a professionally shot, black-and-white photo.

The vibe: A classic barbershop — think gentlemen's club, not Mayberry
